ANGELO STATE UNIVERSITY

Office of the President

November 19, 2010

The Honorable Rick Perry
Governor of Texas

Mr. John O'Brien
Director, Legislative Budget Board

The Honorable Susan Combs
Texas Comptroller

Mr. John Keel, CPA
State Auditor

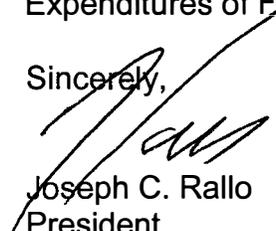

Lady and Gentlemen:

We are pleased to submit the Annual Financial Report of Angelo State University for the year ended August 31, 2010, in compliance with TEX. GOV'T CODE ANN §2101.011 and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The Financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Denise Brodnax at (325) 942-2014. Janet Coleman may be contacted at (325) 942-2014 for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

Joseph C. Rallo
President

ANGELO STATE UNIVERSITY
NOTES TO THE FINANCIAL STATEMENTS
Year Ended August 31, 2010

NOTE 1: Summary of Significant Accounting Policies

ENTITY

Angelo State University is considered an Institution of Higher Education of the State of Texas, and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts Reporting Requirements for State Institutions of Higher Education.

Angelo State University serves the state by offering a wide range of academic programs leading to baccalaureates and masters degrees. Angelo State University is committed to providing educational excellence for Texas.

Due to the significant changes related to Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds. A fund is considered a separate accounting entity. The fund designation for institutions of higher education is a Business Type Activity within the Proprietary Fund Type.

Proprietary FundsBusiness Type Activity

Business type funds are used for activities that are financed through the charging of fees and sales for goods or services to the ultimate user. Institutions of higher education are required to report their financial activities as business type because the predominance of their funding comes through charges to students, sales of goods and services, and grant revenues.

Component Units

The fund types of the individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 19.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Business activity type funds (proprietary funds) are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds principal ongoing operations. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

NOTES TO THE FINANCIAL STATEMENTS
Year Ended August 31, 2010

BUDGETS AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

ASSETS, LIABILITIES, AND FUND BALANCES/NET ASSETS

Assets

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents. For reporting purposes, this account includes cash on hand, cash in local banks, cash in transit, and cash in the Treasury.

Cash and Cash Equivalents as reported on the Statement of Net Assets.

Total Cash and Cash Equivalents	\$ 35,543,124.46	\$ 2,951,004.63	\$ 38,494,129.09

Securities Lending Collateral

Investments are stated at fair value in all funds except pension trust funds in accordance with GASB Statement 31 - Accounting and Financial Reporting for Certain Investments and for External Investment Pools. For pension trust funds, investments are required to be reported at fair value using the accrual basis of accounting in accordance with GASB Statement 25 - Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans. Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses in the Operating Statement. These costs are reported at gross.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. Inventories for governmental fund types are the purchase method of accounting. The consumption method of accounting is used to account for inventories that appear in the proprietary fund types and the government-wide statements. The cost of these items is expensed when the items are consumed.

ANGELO STATE UNIVERSITY
NOTES TO THE FINANCIAL STATEMENTS
Year Ended August 31, 2010

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets such as works of art and historical treasures are not depreciated. A road and highway infrastructure is reported on the modified basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost, if actual historical cost is not available. Donated assets are reported at fair value on the acquisition date. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

Other Receivables

Other receivables include year-end accruals not included in any other receivable category. This account can appear in governmental and proprietary fund types.

Liabilities

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Other Payables

Other payables are the accrual at year-end of expenditure transactions not included in any of the other payable descriptions. Other payables may be included in either the governmental or proprietary fund types.

Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that becomes 'due' upon the occurrence of relevant events such as resignation, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net assets. GASB Statement No. 16, Accounting for Compensated Absences, establishes the standards of accounting and reporting for compensated absences (i.e., vacation, unpaid overtime, and sick leave) by State entities.

Capital Lease Obligations

Capital Lease Obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or noncurrent in the statement of net assets.

Bonds Payable - General Obligation Bonds

The unmatured principal of general obligations bonds are accounted for in the Long-term Liabilities column. Payables are reported separately as either current or noncurrent in the statement of net assets.

Bonds payable are recorded at par. The bond proceeds are accounted for as an "Other Financing Source" in the governmental funds when received, and expenditures for payment of principal and interest are recorded in the Debt Service funds when paid. These amounts are adjusted in the Long-term Liabilities column.

Bonds Payable - Revenue Bonds

Revenue bonds are generally accounted for in the proprietary funds. The bonds payable are reported at par less unamortized discount or plus unamortized premiums. Interest expense is reported on the accrual basis, with amortization of discount or premium. Payables are reported separately as either current or noncurrent in the statement of net assets.

Fund Balance/Net Assets

The difference between fund assets and liabilities is 'Net Assets' on the government-wide, proprietary and fiduciary fund statements, and the 'Fund Balance' is the difference between fund assets and liabilities on the governmental fund statements.

Reservation of Fund Balance

Fund balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use or not available for expenditure.

Reserve for Encumbrances

This represents commitments of the value of contracts awarded or assets ordered prior to year end but not received as of that date. Encumbrances are not included with expenditures or liabilities. They represent current resources designated for specific expenditures in subsequent operating periods.

Reserve for Consumable Inventories

This represents the amount of supplies, postage, and prepaid assets to be used in the next fiscal year.

Unreserved/Undesignated

This represents the unappropriated balance at year-end.

Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt consists of capital assets. Net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt, are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Assets

Restricted net assets results when constraints placed on net assets uses either are externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Assets

Unrestricted net assets consist of net assets, which do not meet the definition of the two *preceding* categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

Unrestricted Net Assets as reported on the Statement of Net Assets:

Interfund Transactions and Balances

Angelo State University has the following types of transactions among funds:

1. **Transfers:** Legally required transfers that are reported when incurred as 'Transfers In' by the recipient fund and as 'Transfers Out' by the disbursing fund.
2. **Reimbursements:** Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures, made by one fund for another, are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
3. **Interfund receivables and payables:** Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter, it is classified as 'Current, repayment for two (or more) years is classified as 'Non-Current'.
4. **Interfund Sales and Purchases:** Charges or collections for services rendered by one fund to another are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund. The composition of Angelo State University's Interfund receivables and payables at August 31, 2010 is presented in Note 12.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The general investment policy of the agency limits investments in debt securities that are not in the top three investment grade ratings issued by nationally recognized statistical rating organizations to 5% total investments. As of August 31, 2010, the agency's credit quality distribution for securities with credit risk exposure was as follow:

Standard & Poor's

Fund Type	GAAP Fund	Investment Type	AAA	AA	A	
		CMO's	1,770.50			
		Municipal Bonds & Other	3,863.44			

Standard & Poor's

Fund Type	GAAP Fund	Investment Type	BBB	BB	B	CCC
		None				

Concentration of credit risk is the risk of loss attributable to the magnitude of investment in a single issuer. As of August 31, 2010 the agency's concentration of credit risk is as follows.

Fund Type	GAAP Fund	Issuer	Carry Value	% of total portfolio
		None		

Securities Lending

Angelo State University does not participate in a security lending program. The Agency had no securities out on loan to broker/dealers at August 31, 2010.

Derivative Investing

Derivatives are financial instruments (securities or contracts) whose value is linked to, or 'derived' from, changes in interest rates, currency rates, and stock and commodity prices. Derivatives cover a broad range of financial instruments, such as forwards, futures, options, swaps, and mortgage derivatives. These mortgage derivatives are influenced by changes in interest rates, the current economic climate, and the geographic make-up of underlying mortgage loans. There are varying degrees of risk associated with mortgage derivatives. For example, Planned Amortization Class (PACS) with narrow collars would be considered moderate to high risks. In contrast, principal only (PC) and interest only (IO) strips are considered higher risk Collateralized Mortgage Obligations (CMO's).

Angelo State University's investments in derivatives comprise less than 1% of total investments as of August 31, 2010, with a reported value of \$1,770.50.

The majority of these investments were purchased prior to fiscal year 1995. In 1995, the Texas Legislature took steps to limit state entities 'and local governments', ability to invest in high risk derivatives by amending the Public Funds Investment Act. These statutory limitations do not apply to certain funds institutions of higher education having total endowments of at least \$95 million. Angelo State University is in compliance with the Public Funds Investment Act.

NOTE 4: Short-Term Debt

Angelo State University had no short-term debt as of August 31, 2010.

NOTE 5: Long Term Liabilities

Employees Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. An expense and liability for proprietary fund types are recorded in the proprietary fund as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Changes in Long-Term Liabilities

During the year ended August 31, 2010, the following changes occurred in liabilities:

NOTE 6: Bonded Indebtedness

On October 21, 1993, the governing board of the Texas Tech University System established a Revenue Financing System for the purpose of providing a financing structure for all revenue supported indebtedness of Texas Tech University System components. The source of revenues for debt service issued under the Revenue Financing System includes pledged general tuition, pledged tuition fee, pledged general fee and any other revenues, income, receipts, rentals, rates, charges, fees, including interest or other income, and balances lawfully available to Texas Tech University components. Excluded from the revenues described above are amounts received under Article 7, Section 17 of the Constitution of the State of Texas, general revenue funds appropriated by the Legislature except to the extent so specifically appropriated, encumbered housing revenues, and practice plan funds.

Revenue Financing System Refunding and Improvement Bonds, 12th Series 2009

Purpose:	For advanced refunding of ASU portion of Texas State University System TRB bonds and construction of Centennial Village.

Issue Date:	March, 2009
Interest Rates:	3.00% to 5.25%
	Maturity
Date Range:	2018 through 2038
Type of Bond:	Revenue
Changes in Debt:	\$35,630,000 issued, \$835,000 retired

Prior to September 1, 2007, all bonded indebtedness for Angelo State University was issued through the Texas State University System (TSUS) Revenue Financing System, of which the Texas State University System Administration and each of their components were members. The TSUS Board of Regents cross-pledged all lawfully available funds (revenues) and balances attributable to any TSUS RFS member against the bonded indebtedness of all other TSUS RFS members for payment on the Parity Debt. Effective September 1, 2007, House Bill 3564 (80th Legislature, Regular Session) transferred governance of Angelo State University to the Texas Tech University System. For the debt issued by the TSUS, the bonds payable are reported by TSUS. ASU will repay the debt that was issued on its behalf; consequently, the following debt amortization schedule is presented below for informational purposes only.

As of August 31, 2010, there were no lawsuits or claims pending against the University.

The University has deferred federal revenue in the amount of \$23,644.56.

NOTE 16: Subsequent Events

Section not applicable.

NOTE 17: Risk Management

The State provides coverage for unemployment compensation benefits from appropriations made to other State agencies for Angelo State University employees. The current General Appropriations Act provides that Angelo State University must reimburse General Revenue Fund-Consolidated, from Angelo State University appropriations, one-half of the unemployment benefits paid for former and current employees. The Comptroller of Public Accounts determines the proportionate amount to be reimbursed from each appropriated fund type. Angelo State University must reimburse the General Revenue Fund one hundred percent of the cost for workers' compensation and for any employees paid from funds held in local bank accounts. The unemployment plan is on a pay-as-you-go basis, in which no assets are set aside to be accumulated for the payment of claims. No material outstanding claims are pending at August 31, 2010.

The administration of the State's employees' workers' compensation program is vested with the State Office of Risk Management (SORM). In accordance with H.B. No. 1203, 77th Legislature, SORM developed and imposed a formula driven charge for workers' compensation costs upon participating agencies, which included System Administration. Prior year costs to State agencies were predicated upon actual losses sustained for workers' compensation, a refunding model. The SORM developed formula, a prepaid model, included factors in addition to actual losses that caused the cost of workers' compensation to increase for most participating agencies. Workers' compensation cost imposed upon agencies are paid through transfers to SORM from appropriations and or funds in the same proportion from which salaries are paid. SORM does reimburse an agency for a portion of its workers' compensation costs paid from the agency's General Revenue Fund appropriations.

Angelo State University incurred a \$ 0.00 loss during the fiscal year ended August 31, 2010 and \$ 0.00 in claims pending at that date.

- a. Due to the diverse risk exposure of the University, the insurance portfolio contains a comprehensive variety of coverage. Texas statutes require participation of all state agencies, directors and officers liability, employee blanket bond, and property and casualty programs. In addition to these basic policies, the University's Department of Risk Management establishes guidelines in risk assessment, risk avoidance, risk acceptance and risk transfer.
- b.
