83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

737 Angelo State University

Angelo State University is committed to its mission of delivering undergraduate and graduate programs that prepare students to be responsible citizens and have productive careers. Part of this commitment centers on ensuring higher education that is affordable, rigorous and accessible. ASU pledges to educate its students to be successful in the competitive environment which they will enter after graduation.

As a member of the Texas Tech University System, ASU continues to develop joint programs, and other cost saving measures, in partnership with Texas Tech University and the Texas Tech University Health Sciences Center such as our three-plus-one program in physics, doctorate in education, and nurse practitioner program. Additionally, cost savings have also been realized by developing partnerships in joint procurement and contract negotiations. Some examples of these shared agreements are: print services contract with Office Max, office supplies contract with Staples, and joint participation with LEARN internet services to reduce bandwidth costs. The combined efforts of the system have provided much greater purchasing power and economies of scale for ASU helping to reduce the overall costs of education by savings an estimated \$800,000 over a fiscal year which was repurposed to the academic mission of ASU.

Angelo State University is recognized as one of the best university bargains in the state with a cost of attendance lower than nearly all other public institutions in Texas. As importantly, ASU has been recognized by The Princeton Review as one of the top public universities in the state of Texas and among the best in the nation each of the last four years.

The efforts being made at ASU for academic excellence continue to be recognized by students as the university has realized a 13.5 percent increase in enrollment since 2007 surpassing 7,000 students for the first time. ASU has set consecutive enrollment records in the fall of 2009, 2010, and 2011.

Part of this enrollment success comes from the creation of the Center for Security Studies and its related academic programs. This program began accepting students in the fall of 2011 and has attracted to ASU a faculty with a national reputation and developed a strong federal funding presence for the university. ASU was also recognized in 2009 as a Hispanic Serving Institution (HSI), allowing it to compete for significant federal funding to assist in the retention and academic success of all of its undergraduate students.

In addition to strong academic programs, Angelo State is known for its Carr Academic Scholarship Program, which is funded by an endowment approaching \$100 million. One of the largest scholarship endowments at a regional university in the nation, the Carr Program awarded \$5,476,725 to ASU students during the 2011-12 academic year.

Angelo State University performs background checks on all new faculty and staff as allowed by the Texas Education Code, Section 51.215 and the Texas Government code, Section 411.094.

LEGISLATIVE CONCERNS AND PRIORITIES

PROPOSED 10% REDUCTIONS (NON-FORMULA FUNDING)

As required, ASU has developed scenarios should a 5 or 10 percent biennial base reduction be exacted. To address these possible reductions, reductions were taken in support areas that were already understaffed but every effort was made to minimize the impact on the core mission of the institution. Institutional enhancement funds would take more than its share of these reductions. These funds are nearly 100% allocated to faculty salaries so a corresponding collapsing of course offerings, increase in class size, and reduction of programs would need to be implemented.

FORMULA FUNDING

ASU's top priority during this legislative session is to secure adequate funding to grow and support enrollment as well as cover the costs of inflation that continue to have a major impact on the institution's operation. The Legislature should fund the formula recommendations at the highest rate. At a minimum sufficient funds should be provided to cover the growth in enrollments statewide and increase the formula funding rates to maintain current purchasing power that reflect changes due to cost increases.

EXCEPTIONAL ITEM REQUEST- FRESHMAN COLLEGE

FY 2014 - \$1,100,000; FY 2015 - \$1,100,000

Funding is requested for a Freshman College to support retention initiatives in order to meet the demands of a growing student population and to address "Closing the Gaps" targets for excellence, participation, and success. The Freshman College will establish :

- 1) A faculty with expertise in first-year student learning to further engage and retain students.
- 2) A Peer Mentor program to help first-year students develop the skills necessary for academic success.
- 3) Bridge programs to provide academic support in area of weakness, introduce students to the pace of college-level learning, and acclimate students to the campus.
- 4) Expand dual-credit and home school programs to decrease time to degree completion.

EXCEPTIONAL ITEM REQUEST - TUITION REVENUE BOND DEBT SERVICE

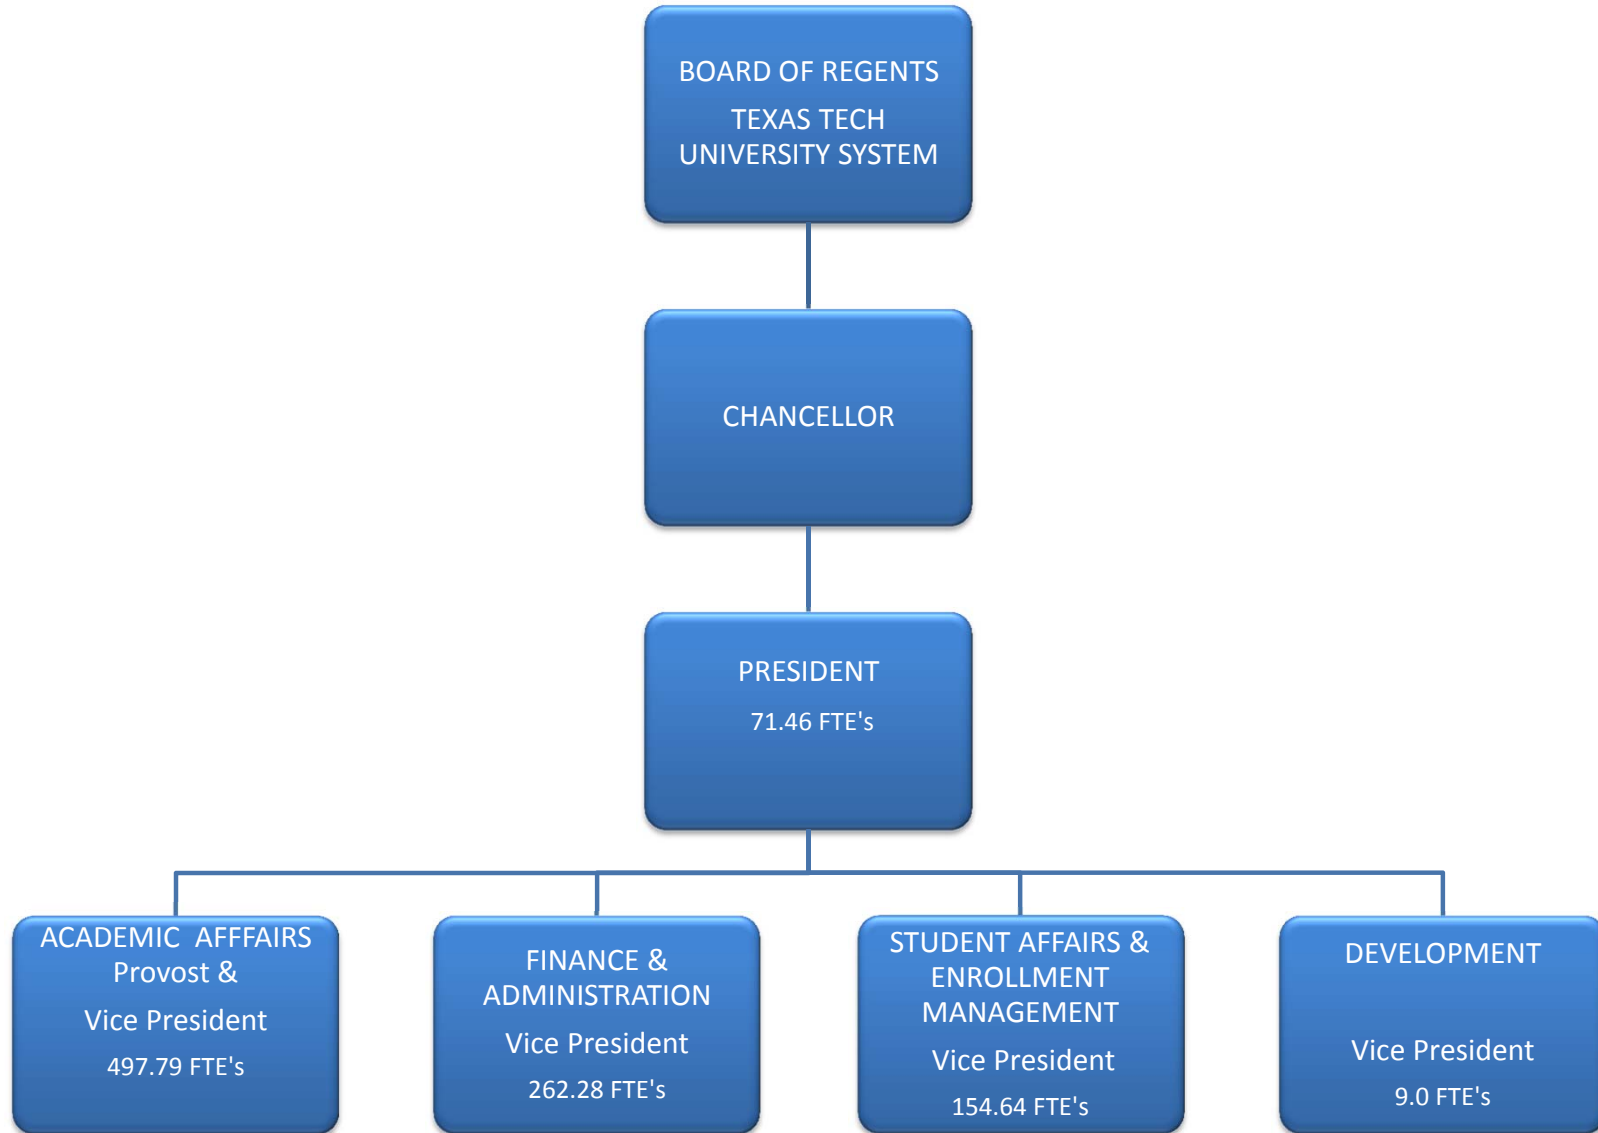

FY 2014 - \$1,461,039; FY 2015 - \$1,461,039

Angelo State University is seeking approval of a tuition revenue bond for College of Health and Human Services and its components. The facility will house classrooms, teaching laboratories, a 100-seat seminar room, height-tech interdisciplinary research laboratories, and a center for online program development and delivery.

TEXAS TECH UNIVERSITY SYSTEM RIDER REVISIONS

The rider revisions and additions requested in in the Texas Tech University System LAR are submitted on behalf of, and with the support of each of the 3 institutions of the Texas Tech University System. In addition, we believe there is a consensus among the other Texas public systems and institutions of higher education in support of the requested revisions. The revisions, each of which includes an explanation, serve the general purposes of clarifying legislative intent, eliminating unnecessary or redundant requirements, or aligning the rider with relevant statutes.

The funding for Staff Group Insurance Premiums for institutions of higher education is capped at an amount established in the Appropriations Bill. Two factors contribute to the possibility of a shortfall in Staff Group Insurance appropriations:

1. The Legislative Budget Board requires that the appropriations for Staff Group Insurance must be based on actual enrollment as of December 1 of the fiscal year that the Legislature is in session. This process does not take into consideration any enrollment growth that may occur during the biennium or any growth in the next biennium due to additional appropriations or other factors.
2. The premiums for retirees must also be paid from the appropriations to each institution including the institution's proportional share. The number of retirees may increase significantly before the end of the biennium or during the next biennium.
3. Effective 9/1/2006, as provided by SB 1863, 79th Regular Legislative Session, employees who waive or who have previously waived health insurance may elect to receive an Opt Out Credit to be applied to Dental or AD&D insurance coverage. Institutions of higher education are charged the full \$30 for part-time employees/retirees or \$60 for full-time employees/retirees regardless of the amount of the credit used by the employee for Dental or AD&D coverage.
4. Any employee who has currently or previously waived health insurance may elect to receive the Opt Out Credit, this represents an additional cost since there was no prior appropriation for these individual's health insurance.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Organized Activities "Ranch Operation" strategy has been authorized by Senate Bill No. 1, the General Appropriations Act. It will conduct a ranch program of similar nature to that of private ownership operations in the Edwards Plateau area, thereby providing a realistic environment for instruction of agricultural students and management demonstration projects which will be of benefit to the agricultural industry of the area. The strategy is not associated with any court order and/or federal mandate. It addresses the University's fiscal need to conduct a progressive operation that serves as a model for study and provides for continued improvement. No new initiatives are associated with this strategy. It will enable the institution to provide a high quality academic program in support of student success.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The market conditions and the climate significantly affect the Ranch Operation. Both the workload and the productivity of the Ranch are affected positively by good market conditions and weather. They are affected negatively by low market prices and dry weather.

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

DESCRIPTION / JUSTIFICATION:

1. Angelo State University requests exceptional item funding to support retention initiatives in order to meet the demands of a growing student body and to address "Closing the Gaps" targets for excellence, participation, and success. The Freshman College will establish:
 - a) A faculty with expertise in first-year student learning to further engage and retain students.
 - b) A Peer Mentor program to help first-year students develop the skills necessary for academic success.
 - c) Bridge programs to provide academic support in areas of weakness, introduce students to the pace of college-level learning, and acclimate students to the campus.
 - d) Expand dual-credit and home school programs to decrease time to degree completion.
2. The Freshman College in its initial phase was started in the Fall of 2012 using repurposed institutional funds. The exceptional item funding requested would be used to enhance the current offerings.
3. This exceptional item is not eligible for formula funding. The purpose of the Freshman College initiative is to serve as a supplement to academic instruction.
4. No other sources of funding exist for this special item.
5. Not receiving this funding will divert faculty FTE from existing academic programs to the Freshman College, prevent learning communities from improving academic success, increase time to degree completion, and hinder retention initiatives.

DESCRIPTION / JUSTIFICATION:

Tuition Revenue Bond project in the amount of \$16,758,000 is being requested. This exceptional item requests funding for the debt service for these bonds. Requested debt service has been estimated assuming 20-year level debt service at 6%. These assumptions have traditionally been used by all institutions of higher education in the legislative appropriations process and are consistent with the assumptions used by the LBB and the Texas Bond Review Board in their Debt Affordability Study and in the calculation of the State's debt limit.

EXTERNAL/INTERNAL FACTORS:

This assumption is only used in estimating the initial debt service. Following the initial appropriations, the actual debt service schedule from the actual TRB issuance are used to request the annual TRB debt service.

METHOD OF FINANCING:			
1	General Revenue Fund	13,427	13,427
TOTAL, METHOD OF FINANCING		\$13,427	\$13,427

DESCRIPTION / JUSTIFICATION:

Additional funding is needed for rent as SBDC relocates into off-campus space for its offices. The ASU SBDC is a community outreach and community involvement program that serves the 10 county region of the Concho Valley with small business advising and training services. It also assists and supports general economic development in the area it serves, especially in the rural areas of the Concho Valley. The program requires existing and potential small business clients, as well as business, civic and governmental leaders to come to campus offices to visit with SBDC professional staff. Because of the lack of adequate parking for these visitors on campus, parking is a challenge for these visitors. The SBDC has made an effort over the past few years to find space for SBDC offices off campus and have led the effort to locate with other economic development partners into a Business Resource Center, which is anticipated to open November 2012. In addition to the professional staff, the SBDC employs up to four ASU students giving them needed experience with actual businesses. This includes two graduate students. Numerous ASU students attend SBDC business training, and some are clients. The move into the Business Resource Center will provide a better space for business students to have more interaction with actual businesses. The SBDC will facilitate this process with faculty advisors.

Additional information for the SBDC is furnished in Schedule 9.

EXTERNAL/INTERNAL FACTORS:

Not receiving this additional funding will cause a reduction of professional staff, as funding for new rental space off campus will have to be taken from salaries, resulting in an elimination of a FTE position. This position would be a SBDC business advisor. This would affect the ability of the SBDC to deliver the business and economic development community outreach and community involvement services to the 10 county community of the Concho Valley.

B. Assessment of Fiscal Year 2010 - 2011 Efforts to Meet HUB Procurement Goals

Attainment:

The institution attained or exceeded 3 of 6 applicable statewide HUB procurement goals in FY2010 and attained or exceeded 4 of 6 applicable statewide HUB procurement goals in FY 2011.

Applicability:

N/A

Factors Affecting Attainment:

The HUB goals were not met due to the limited availability of HUBS in our close proximity. Currently we have 88 vendors from Tom Green County registered on the Centralized Master Bidders List and 61 are HUBs. When bidding opportunities are presented to HUBs they do not always represent value to the institution.

"Good-Faith" Efforts:

The institution made the following good faith efforts to comply with statewide HUB procurement goals per 1 TAC Sec 111.13: 1) ensured that contract specifications, terms and conditions reflected the agency's actual requirements, were clearly stated, and did not impose unreasonable or unnecessary contract requirements, 2) provided potential bidders with a list of HUBs for subcontracting, 3) required three (3) bids with two (2) being from HUBs for orders over \$5000, 4) matched up HUB vendors with potential end-users, 5) attended forums as a speaker set up by the Small Business Development Center on how to do business with ASU, 6) attended HUB forums and HUB vendor affairs to make additional contact with HUB sources.

Item Comment: Angelo State University will reduce services available at the School Based Clinic. This will impact the community support available to under-served children for health care.							
Angelo State University will reduce services provided by the Center for Academic Excellence. This will include developmental education and supplemental instruction. This reduction in service will impact the closing the Gaps Plan.							
In addition, reduction of funds for Instructional Enhancement will decrease the number of faculty at the University. This would impact our ability to effectively graduate students on time and would negatively impact the Closing the Gaps Plan.

Project Description

This project will construct a new building for the College of Health and Human Services (CHHS) and its component departments and programs including Nursing, Physical Therapy, Athletic Training, Kinesiology, Social Work, Applied Psychology and Counseling. The facility will house classrooms, teaching laboratories, a 100-seat seminar room, high-tech interdisciplinary research laboratories, and a center for online program development and delivery. Authorization of this item will directly address the "Closing the Gaps" goals of participation and success by increasing enrollment of diverse populations and the graduation of highly trained nursing and allied health professionals ready and able to enter high demand healthcare professions. Close to one-third of the total enrollment at ASU are students majoring in one of the disciplines offered by the CHHS. The total cost of the project is \$18,620,000 with the source of funds as follows: Tuition Revenue Bonds \$16,758,000 and Gifts \$1,862,000.

Special Item: 1 **School-Based Clinics**

(1) Year Special Item: 1998

(2) Mission of Special Item:

Provide clinical experience for nursing students in schools with minority and underserved populations and provide basic health care services.

(3) (a) Major Accomplishments to Date:

School children who might have otherwise not had access to medical care have been provided basic health care services. With the addition of a clinical psychologist, licensed professional counselor, and a social worker, school children now have access to outstanding behavioral health programs. Nursing students at all levels receive outstanding clinical training, enabling increased enrollment in the University's Nursing program and more nurses entering the workforce.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Maintain and expand services to include mental and developmental health to children (ages 0-18) within Tom Green County. Psychology and social work majors will also have access to clinical experiences at the SBC.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N/A

(6) Non-general Revenue Sources of Funding:

Patient Fee & Interest Income: FY 2008-\$64,828; FY 2009-\$80,262; FY 2010-\$189,720; FY 2011-\$215,000; FY 2012-\$225,000

(7) Consequences of Not Funding:

Failure to fund will result in many children not receiving medical & behavioral health services they require and nursing students not having the clinical site which is critical to the completion of their degree program. Loss of this clinical site would also force reductions of enrollment in current programs and limit enrollment in new programs.

(6) Non-general Revenue Sources of Funding:

Federal Grant Revenue: FY 2006-\$48,001; FY 2007-\$71,939; FY 2008-\$71,526; FY 2009-\$78,306; FY 2010-\$87,036; FY 2011-\$124,984;
Local Fee Revenue and Gifts: FY 2006-\$12,021; FY 2007-\$13,443; FY 2008-\$9,641; FY 2009-\$11,672; FY 2010-\$15,108; FY 2011-\$23,931

(7) Consequences of Not Funding:

There would be a loss of federal funds available to support business development extension services in the 79-county South-West Texas Border Region. Reduced client services, staff position terminations and student learning activities would be affected commensurately with funding reductions or loss. This would affect all 10 partner-institutions of the Regional SBDC network. ASU SBDC would see reduced staffing, and loss of federal funding. Lack of ability to serve 10 county service area and providing service learning opportunities to ASU students.

Special Item: 5 **Center for Fine Arts**

(1) Year Special Item: 1997

(2) Mission of Special Item:

To provide students access to a state of the art ceramics laboratory. Assist art majors in completing their degree by providing these necessary ceramics courses.

(3) (a) Major Accomplishments to Date:

Features biennial faculty exhibit.

Provide programs for children through "Kids Collage" each year through a special Ceramics Seminar, host students from Texas, Louisiana, Oklahoma and New Mexico.

Host an annual Chamber Music Series.

Approximately 2,000 students visit the museum each year.

Special Item: 6 **Management, Instruction, and Research Center**

(1) Year Special Item: 1969

(2) Mission of Special Item:

To serve as a resource center for 22 million acre Edwards Plateau region of West Texas through the implementation of management, instruction, and applied research.

(3) (a) Major Accomplishments to Date:

This center serves as the Agriculture Department's Teaching and Research Center with numerous notable accomplishments. The center has developed outstanding facilities for conducting applied research with cattle, sheep, goats, range, wildlife, and meat. The MIR Center has become an outstanding facility for teaching graduate and undergraduate students through hands-on laboratory and field experiences. The center has also developed outstanding herds of livestock to assist area producers in genetic advancement of their own livestock. Research has been conducted that established the National Research Council's requirements for Vitamin A in growing lambs. The center has also established supplementation recommendations to decrease the impact of Bitterweed in sheep. The first and longest running Central Meat Goat Performance Test was established at the MIR Center and has resulted in establishing a tool for meat goat producers to utilize for selecting genetically superior males for use as sires. The center has also been able to secure funding through grants and donations to build a federally inspected Food Safety and Product Development Laboratory utilized for training graduate and undergraduate students in the food industry. Since the establishment of the MIR Center, it has resulted in over 50 scientific publications and professional presentations. Additionally, the center publishes a progress report of current research every two years.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The center expects completion of ongoing graduate and undergraduate research that should result in producer recommendations on low cost supplementation and management strategies for improving sheep production while maintaining or improving production levels. Research will also be completed on the impact feed ingredients have on the growth and ultimate reproductive performance of ewe lambs. Research will also be completed on the use of mineral supplementation for controlling heat stress on bucks and rams. Recommendations will be established on the use of small ruminants for the control of invasive woody plant species and the impact it will have on livestock performance. Additionally, data will be available on the cost effectiveness of various herbicides for the control of mesquite and prickly pear. Estrus synchronization in sheep has been one of the major hindrances for artificial insemination in sheep and research will be completed that will allow recommendations on the most effective protocol that will result in the highest conception rates in sheep artificially inseminated. Additionally, funds have been secured to construct an Agricultural Science Training Center that will be fully operational within two years. This center will allow effective training of students to become Agricultural Science Teachers. We expect research at the facility to result in grants and partnerships for students to conduct research and receive training to be competitive in the industry.

(6) Non-general Revenue Sources of Funding:

Meat Lab and Deer Hunt Income: FY 2009-\$79,947; FY 2010-\$79,619; FY 2011-\$118,082; FY 2012 \$123,000 projected

(7) Consequences of Not Funding:

Additional funding is needed to maintain current operational levels and increase the opportunities for students to be involved in the agriculture environment. Students entering college have less background in agriculture than before, therefore, the center is even more critical for training students than ever before. Students will not be provided opportunities to study farm and ranch management and participate in research with faculty.
