Chart of Fees for Select Research Services

All research data services include paper and electronic data entry. All data will be recorded in MS Excel spreadsheet format unless otherwise arranged. Additional analysis should be arranged prior to services rendered.

Carcass Data¹ \$8.00/hd

¹ Carcass data collection consists of all necessary carcass attributes collected to predict carcass quality and yield for each respective species. Additional attributes desired should be requested prior to data collection.

Sensory Analysis ²	\$110.00/panel
	\$10.00/sample

 2 Sensory panel sessions consist of a maximum of 8 samples per panel. A \$110.00 set up fee will be assessed for every 4 panels or 32 samples. An additional fee of \$10.00/sample is assessed for all samples.

Shear Force Analysis³ \$15.00/sample

³ Warner-Bratzler Shear Force analysis fees are strictly assessed on a sample basis.

Retail Shelf-life⁴	\$250.00/panel
	\$25.00/sample

⁴ Retail shelf life panels consist of a 5 day display period. Additional display periods can be added for additional panel set-up fees. Sample fees are assessed as a one time cost.

Microbial Analysis ⁵	
Aerobic Plate Count	\$15.00/sample
E. coli/Coliform (traditional or Petrifilm)	\$10.00/sample
Yeast and Mold (Petrifilm)	\$15.00/sample
Salmonella isolation (RV/TT, XLT4, latex agglutination)	\$40.00/sample
E. coli O157:H7 isolation (IMS, Chromagar, latex agglutination)	\$40.00/sample

⁵Minimum of ten samples

⁵All final charges will be determined based on specific project need
